

# Success AT THE Core

EXHIBIT 6

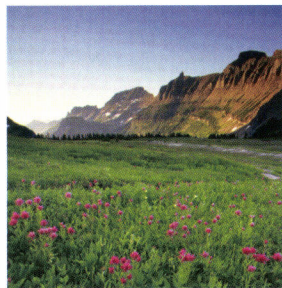

DATE 2-7-13

[www.successatthecore.com](http://www.successatthecore.com)  
HB Office of Public Instruction

*Success at the Core (SaC)* is a **FREE** set of online professional learning materials for educators. It contains **47 documentary-quality videos**, as well as downloadable materials and multimedia presentations that show how **collaborative leadership teams** operate and what effective classroom instruction looks like.

SaC **Teacher Development** strategies focus on effective classroom practices, and **Leadership Development** materials illustrate effective teamwork that leads to school-wide improvement. Together, they support **improvement in instruction and school leadership**, the two factors that most impact student achievement.

K-12 educators in Montana are using SaC's research-based practices to strengthen and support school leaders, leadership teams, and ultimately, student outcomes.

*Success at the Core* began when philanthropist and Microsoft co-founder Paul G. Allen asked his documentary film company, Vulcan Productions, how media could be used to make a difference in education. Vulcan Productions teamed up with Education Development Center, a non-profit with a track record in fostering school improvement, to develop *SaC*.

**Schools using *SaC* over time report a growth in leadership capacity, improved professional culture, stronger instructional focus, and increased student engagement.**

Join the growing community of educators who use *SaC* to improve student achievement through professional learning for teachers and leadership teams. *SaC* is proud to collaborate with Montana education partners:

- **Montana Office of Public Instruction**
- **School Administrators of Montana**
- **MEA/MFT**
- **The University of Montana**
